Signing up for merit badges is easy! List the courses you wish to take in priority order. See the detailed course list for the course names to choose from. Up to 3 courses can be scheduled in the allotted Winter Camp day. Once you make your selections the CampMaster program will automatically assign times to your course schedule. Keep in mind each Merit Badge class is 50 minutes in length over 3 days total; Merit Badge counselors may offer additional "lab times" in the afternoon in order to facilitate completion of certain requirements and it will be up to the Scout to listen and follow up with any lab times offered in the afternoon. Additional course names are collected in case some of the top 3 are not available.
